STUDENT CONTEST ON SOFTWARE ENGINEERING – PART OF ICSE 2011

SCORE is a worldwide competition for teams of undergraduate and/or master's level students, emphasizing the engineering aspects of software development.

? *Yes, you can use SCORE projects in your software engineering course!*
Yes, multi-institutional and multi-national teams can participate!
◆ *Awards include financial support to help offset travel expenses to ICSE 2011 for representatives of finalist teams!* !

Organizing Committee

Co-chairs

Matteo Rossi, *Politecnico di Milano*

Michal Young, *University of Oregon*

Program Committee

Jaelson Castro, *Universidade Federal de Pernambuco*

Ivica Crnkovic, *Mälardalen University*

Elisabetta Di Nitto, *Politecnico di Milano*

Stuart Faulk, *University of Oregon*

Steve Fickas, *University of Oregon*

Connie Heitmeyer, *Naval Research Laboratory*

Mehdi Jazayeri, *Università della Svizzera italiana*

Ernesto Kizskurno, *Pragma Consultores*

Tim Lethbridge, *University of Ottawa*

Xiaoxing Ma, *Nanjing University*

Dino Mandrioli, *Politecnico di Milano*

Owen O'Malley, *Yahoo*

Nico Plat, *Formal Methods Europe*

Kapil Vaswani, *Microsoft Research India*

Alan Wassyn, *McMaster University*

David Weiss, *Iowa State University*

SCORE 2011 is the second in a series of SCORE contests and part of the International Conference on Software Engineering.

SCORE project topics suitable for software engineering project courses or independent teams are available now on the SCORE website. (Self-proposed projects are not eligible for the competition.) Teams must register at the SCORE website before they start the project. Participating teams must be composed exclusively of undergraduate and/or master's level students. A team may have 2 to 7 members; teams of 5 or less are recommended.

Projects may be developed as part of a software engineering course. Also, they can be composed of students from different institutions.

Teams will submit full software products, covering the whole software development process. After a careful evaluation carried out by the SCORE Program Committee, finalist teams will be invited to present their projects at ICSE 2011 in Waikiki, where awards will be selected and presented.

Key dates

- **February – November 2010:** Registration open.
- **March 2010:** Submissions of summary reports open.
- **30 November 2010:** Registration for participation closes.
- **15 January 2011:** Submission for the summary reports closes.
- **15 February 2011:** Selection of finalists in two stages. Semifinalist teams will be asked to submit a final deliverable, which will be the basis for the selection of the finalists.
- **28 February 2011:** Deadline for the submission of the final deliverable.
- **28 March 2011:** Announcement of finalists, who will be invited to ICSE 2011 in Waikiki, Hawaii.
- **21-28 May 2011 (ICSE 2011):** Final evaluation and award presentations.
